Applicants respectfully draw the Examiner's attention to the International Search Report for WO/0053624 (included with Document AN1). WO/0053624 is the International Patent Application upon which the present application claims priority.

The Examiner is requested to contact the undersigned in the event that any of the cited documents cannot be located, so that replacement copies can be expeditiously provided to the Examiner.

This Information Disclosure Statements is being submitted prior to an Initial Office Action. No fee is accordingly believed due for consideration of this Information Disclosure Statement. However, if the Commissioner determines that an additional fee is required in for consideration of this Information Disclosure Statement, the U.S. Patent and Trademark Office is hereby authorized to charge any

fee deficiency, or credit any overpayment, to Deposit Account No. 50-0548
referencing docket number 3504.290.

The submission of the listed and appended documents is not intended as an admission that any such document constitutes prior art against the claims of the present application. Applicants do not waive any right to take any action that would be appropriate to antedate or otherwise remove any listed document as a competent reference against the claims of the present application.

Applicants respectfully request that the documents listed on the accompanying Form PTO-1449 be considered and made of record in the present application. Applicants further request that the Examiner initial and return a copy of the enclosed PTO-1449, and to indicate in the official file wrapper of this patent application that the documents have been considered.

While the listed references are considered relevant to the prosecution of the present application, it is submitted that the references, either alone or in combination, do not detract from the patentability of the claimed invention.

Respectfully Submitted,
